

How to Schedule and Join a Video Visit

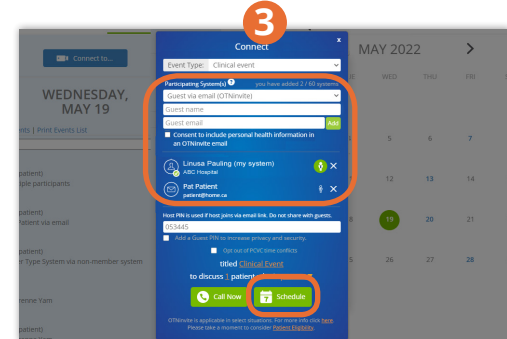

Direct-to-Patient Video Visits enable you to invite any patient to join a videoconference.

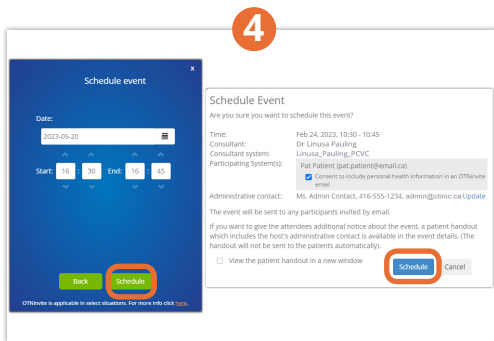

Log in to otnhub.ca.

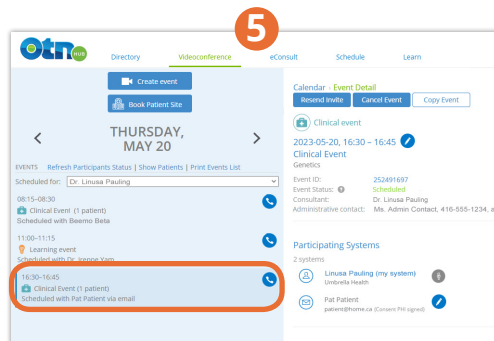

Use **Connect to a Patient at Home** fields or click **Videoconference** in the top navigation bar, and click **Create event**.

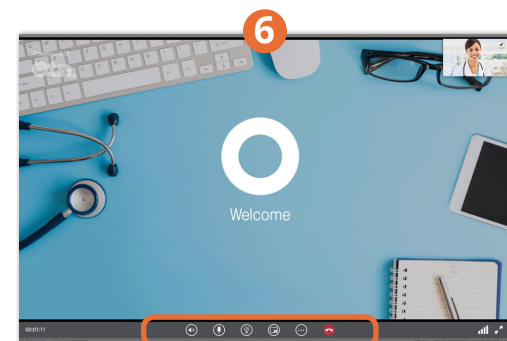

Select a **Participating System** type of **Guest via email (OTNinvite)**, enter the name and email, and select (or not) the **Consent to include personal health information in an OTNinvite email**. Click **Schedule** to schedule the event.

Select the desired Date, Start & End times, click **Schedule**, and confirm the details to send the email invite.

At the time of the appointment, log in to otnhub.ca, click **Videoconference** in the bottom navigation bar, select the event and click **Join** to join.

Once connected, you will see your self-view in the top right corner. Wait for the patient to join. Ensure your camera and microphone are on.
