

Joining as Host via a Mobile Device

Note: You will need the Host URL and Host PIN.

The host's delegate* can copy [CTRL+C] these items from the OTNhub **Event Details** and paste [CTRL+V] them into an email, which they send to the event's host.

1. Open a browser window and enter the Host URL.
Or if you received the Host URL in an email, tap the link.
2. Follow the on-screen prompts to open and access the app.
 - In the **Hello, What's your name** panel, enter the Name** you want shown to other participants.
 - If a **Permission** panel appears, allow the app to access your camera and microphone.
3. To join the eVisit, tap **Join now**.
4. If asked **"Are you the host?"**, select Yes and enter the **Host PIN**.
5. When connected, a video window appears.
 - If you are the first participant to enter the conference, you will see a **"Welcome"** image in the large panel and your self-view at the top right.
 - After other participants join, you will be connected and see both them and your self-view.
6. To end the conference, tap anywhere in the video image to show the control bar and then tap the **End Call** button .

TIP: Are you hosting a **group meeting**?
If yes, see also [Hosting Group Video Visits](#) .

* A delegate is someone who is associated with the host's system and has permission to schedule that system using OTNhub and Ncompass.

** The name entered is what others will see during the video visit. To protect your identity and limit what personal information will be seen by others, take the time to check that the name is correct and accurate.
